## **Ritual And Symbol In Peacebuilding:**

Ritual and Symbol in Peacebuilding Lisa Schirch, 2005 Serves as a guide to using ritual acts in peacebuilding efforts Abundant with examples of symbolic acts that aided the peace process Conflict is dramatic In theater literature story telling and news reporting it is a powerful mechanism that draws attention heightens the senses and evokes emotion Schirch argues that peacebuilding has the potential to do just the same Examples of peacebuilding often center on the serious rational negotiations and formal problem solving efforts in conflict situations Schirch argues though that what truly bonds adversaries and helps achieve peace are the symbolic non verbal ritual acts shaking hands sharing a meal showing a photograph of a loved one Yet these are often overlooked as deliberate components of peace negotiations Ritual and Symbol in Peacebuilding underscores the importance of incorporating symbolic tools including ritual into traditional approaches to conflict Ritual assists in solving complex deep rooted conflicts and helps to confirm and transform worldviews identities and relationships With theories and language to explain the symbolic dimensions of conflict this text will be useful to scholars and practitioners active in the diverse field of peacebuilding *Creating the Third Force* Maureen P. Flaherty, Hamdesa Tuso, 2016-11-21 The profession of peacemaking has been practiced by indigenous communities around the world for many centuries however the ethnocentric world view of the West which dominated the world of ideas for the last five centuries dismissed indigenous forms of peacemaking as irrelevant and backward tribal rituals Neither did indigenous forms of peacemaking fit the conception of modernization and development of the new ruling elites who inherited the postcolonial state The new profession of Alternative Dispute Resolution ADR which emerged in the West as a new profession during the 1970s neglected the tradition and practice of indigenous forms of peacemaking The scant literature which has appeared on this critical subject tends to focus on the ritual aspect of the indigenous practices of peacemaking The goal of this book is to fill this lacuna in scholarship More specifically this work focuses on the process of peacemaking exploring the major steps of process of peacemaking which the peacemakers follow in dislodging antagonists from the stage of hostile confrontation to peaceful resolution of disputes and eventual reconciliation The book commences with a critique of ADR for neglecting indigenous processes of peacemaking and then utilizes case studies from different communities around the world to focus on the following major themes the basic structure of peacemaking process change and continuity in the traditions of peacemaking the role of indigenous women in peacemaking the nature of the tools peacemakers deploy common features found in indigenous processes of peacemaking and the overarching goals of peacemaking activities in indigenous communities Peacebuilding in Traumatized Societies Barry Hart, 2008-02-26 This work examines trauma identity security education and development as issues of critical importance to peacebuilding and social reconstruction after large scale violence This violence takes the form of war mass killings and genocide as well as structural violence that has humiliated and impoverished millions of people across the globe Transitional justice leadership religion and the arts are other crucial issues

that are included in this analysis of violence and its transformation The book explores how each issue can be independently addressed for transformational purposes but argues for their active interdependence in order to more effectively help individuals communities and societies emerge from violence and begin the rebuilding process Peacebuilding for Traumatized Societies examines these issues in theoretical and practical terms through case studies and descriptions of training and problem solving procedures in Rwanda the Balkans Colombia and the Philippines *Journal of Ritual Studies* ,2005

*Mediating Across Difference* Morgan J. Brigg,Roland Bleiker,2011-01-31 Mediating Across Difference is based on a fundamental premise to deal adequately with conflict and particularly with conflict stemming from cultural and other differences requires genuine openness to different cultural practices and dialogue between different ways of knowing and being Equally essential is a shift away from understanding cultural difference as an inevitable source of conflict and the development of a more critical attitude toward previously under examined Western assumptions about conflict and its resolution To address the ensuing challenges this book introduces and explores some of the rich insights into conflict resolution emanating from Asia and Oceania Although often overlooked these local traditions offer a range of useful ways of thinking about and dealing with difference and conflict in a globalizing world To bring these traditions into exchange with mainstream Western conflict resolution the editors present the results of collaborative work between experienced scholars

and culturally knowledgeable practitioners from numerous parts of Asia and Oceania The result is a series of interventions that challenge conventional Western notions of conflict resolution and provide academics policy makers diplomats mediators and local conflict workers with new possibilities to approach prevent and resolve conflict Contributors Roland Bleiker Volker Boege Morgan Brigg Stephen Chan Frans de Jalong Sr Lorraine Garasu Mary Graham Hoang Young ju Carwyn Jones Joy Kere Debra McDougall Norifumi Namatame Chengxin Pan Oliver Richmond Deborah Bird Rose Muhadi Sugiono Tarja Vyyrynen Polly O Walker Jacqueline Wasilewski

**Disarming the Past** Ana Cutter Patel,Pablo De Greiff,Lars Waldorf,2009 For the past twenty years international donors have invested heavily in large scale disarmament demobilization and reintegration DDR programs while at the same time transitional justice measures have proliferated bringing truth justice and reparations to those recovering from state violence and civil war Yet DDR programs are seldom deconstructed to discover whether they truly achieve their justice related aims Additionally transitional justice mechanisms rarely articulate strategies for coordinating with DDR Disarming the Past examines the connections and failures between these two initiatives within peacebuilding contexts and evaluates future links between DDR programs and the aims of transitional justice The outcome of a substantial research project initiated by the International Center for Transitional Justice ICTJ this book is crucial for anyone interested in effective interventions and enduring outcomes
