## 1. Introduction

### 1.1 Delivering a SAP Overview Presentation to the Client

The first thing in an implementation is presenting SAP to the client team. It is expected that the consulting team would give an overview of SAP and explain the same in a layman language.

Mostly, the presentation is given to IT Heads, Business Resource Managers, Manufacturing Heads and a good presentation will build a good trust, which is very important.

A good PPT and a good presentation will convey a great message about the team and about you as an individual.

The first interaction with the client and the organisation can be really horrifying if you are implementing SAP in a big manufacturing organisation, and you see the big chimneys touching the sky and Silos standing like monsters. This is where your mind would start playing on you, and you would all of a sudden feel less confident and doubtful about your SAP knowledge. But, the fact holds true that, bigger the organisation better the chances of opting standard SAP.
