Inclusive Futures Arif Perdana,Vijayakumar Bharathi S,Kanchan Patil,Grace Wangge,Sabina Satriyani Puspita,Wei Kang,2026-01-30 This book offers a comprehensive analysis of the role of diversity equity and inclusion DEI in the technology sector from a global perspective Comprising seven in depth chapters the book highlights inherent biases within technology and strategies for constructing inclusive products and services It takes on a forward looking outlook on the future of DEI in technology visualizing a world in which technology functions as a unifying force for positive social transformation The authors examine DEI and their significance across different regions to enhance readers awareness and understanding This increased understanding is crucial for professionals and policymakers to make informed decisions that foster an inclusive technological environment The book equips the readers with knowledge to identify and address these biases in technology including algorithms datasets and user interfaces through an in depth study of such biases This is particularly valuable for technology developers designers and companies that aim to create fair and unbiased technology products and services Through the global and local case studies and empirical research readers learn valuable insights to developing inclusive technology products and services that cater to a diverse range of users This book also addresses recruitment practices and cultural changes necessary within tech organizations to cultivate a diverse and inclusive workforce The topic of how technology can bridge the digital divide and empower underrepresented communities is studied providing new ideas for such initiatives in the future This book serves as a valuable resource for practitioners involved in the development of technology

hiring in the technology sector and leaders involved in policymaking of ethical and regulatory aspects of DEI in technology

SAP Security Configuration and Deployment Joey Hirao, 2008-11-18 Throughout the world high profile large organizations aerospace and defense automotive banking chemicals financial service providers healthcare high tech insurance oil and gas pharmaceuticals retail telecommunications and utilities and governments are using SAP software to process their most mission critical highly sensitive data With more than 100 000 installations SAP is the world s largest enterprise software company and the world s third largest independent software supplier overall Despite this widespread use there have been very few books written on SAP implementation and security despite a great deal of interest There are 220 000 members in an on line SAP community seeking information ideas and tools on the IT Toolbox Website alone Managing SAP user authentication and authorizations is becoming more complex than ever as there are more and more SAP products involved that have very different access issues It s a complex area that requires focused expertise This book is designed for these network and systems administrator who deal with the complexity of having to make judgmental decisions regarding enormously complicated and technical data in the SAP landscape as well as pay attention to new compliance rules and security regulations Most SAP users experience significant challenges when trying to manage and mitigate the risks in existing or new security solutions and usually end up facing repetitive expensive re work and perpetuated compliance challenges This book is designed to help them properly and efficiently manage these challenges on an ongoing basis It aims to remove the Black Box mystique that surrounds SAP security The most comprehensive coverage of the essentials of SAP security currently available risk and control management identity and access management data protection and privacy corporate governance legal and regulatory compliance This book contains information about SAP security that is not available anywhere else to help the reader avoid the gotchas that may leave them vulnerable during times of upgrade or other system changes Companion Web site provides custom SAP scripts which readers can download to install configure and troubleshoot SAP

Auditing and GRC Automation in SAP Maxim Chuprunov, 2013-04-09 Over the last few years financial statement scandals cases of fraud and corruption data protection violations and other legal violations have led to numerous liability cases damages claims and losses of reputation As a reaction to these developments several regulations have been issued Corporate Governance the Sarbanes Oxley Act IFRS Basel II and III Solvency II and BilMoG to name just a few In this book compliance is understood as the process mapped not only in an internal control system that is intended to guarantee conformity with legal requirements but also with internal policies and enterprise objectives in particular efficiency and profitability The current literature primarily confines itself to mapping controls in SAP ERP and auditing SAP systems Maxim Chuprunov not only addresses this subject but extends the aim of internal controls from legal compliance to include efficiency and profitability and then well beyond because a basic understanding of the processes involved in IT supported compliance management processes are not delivered along with the software Starting with the requirements for compliance

Part I he not only answers compliance relevant questions in the form of an audit guide for an SAP ERP system and in the form of risks and control descriptions Part II but also shows how to automate the compliance management process based on SAP GRC Part III He thus addresses the current need for solutions for implementing an integrated GRC system in an organization especially focusing on the continuous control monitoring topics Maxim Chuprunov mainly targets compliance experts auditors SAP project managers and consultants responsible for GRC products as readers for his book They will find indispensable information for their daily work from the first to the last page In addition MBA management information system students as well as senior managers like CIOs and CFOs will find a wealth of valuable information on compliance in the SAP ERP environment on GRC in general and its implementation in particular
