

# BUSINESS FINANCE

## COURSE DESCRIPTION

This course deals with the fundamental principles, tools, and techniques of the financial operation involved in the management of business enterprises. It covers the basic framework and tools for financial analysis and financial planning and control, and introduces basic concepts and principles needed in making investment and financing decisions. Introduction to investments and personal finance are also covered in the course. Using the dual-learning approach of theory and application, each chapter and module engages the learners to explore all stages of the learning process from knowledge, analysis, evaluation, and application to preparation and development of financial plans and programs suited for a small business.

## COURSE LEARNING OUTCOMES

After completing the course students can:

- Describe the basic concepts of Business Finance and its field branches of studies (CO 1);
- Prepare and analyze financial statements (CO 2);
- Apply financial planning tools on working capital management (CO3); and
- Apply financial planning tools on short-term and long-term financing (CO 4).
