

WOODEN HOUSE

You may need to build a house to protect yourself and your possessions in Survival mode, or you might want to build a beautiful cottage in Creative mode. Whatever your requirements, houses are one of the most important constructions to get right.

CONSTRUCTION MATERIALS

1 First, create a simple 2-block tall outline using cobblestone blocks. Add a slight overhang at the front for an entrance and a slight dip at the back for a rear porch.

2 Build up the first-floor walls, bearing in mind how high you'd like your ceiling to be. We recommend at least 1 or 2 blocks of space above and head so it doesn't feel too cramped. Fill in your first floor using wood planks.

DIFFICULTY 2/5

3 Build up the second-floor walls in wood planks to complement the construction. It's often easier to fill in the entire wall, then knock any excess blocks out to add windows. Add in your second floor using wood planks followed by a handy wooden staircase.

4 Use glass blocks to create windows and wood blocks to define the edges of your house. Add 2 sets of wooden double doors to the entrance and torches to light it all up at night. Finally, lay out your ground and illuminate your house.
