**Color Coded** Walter Nugent, 2018-10-15 The now staunchly red state of Texas was deep blue in 1950 and had virtually no functioning Republican Party California on the other hand was reliably red Today both states have jumped to the opposite end of the political spectrum Texas is one of the most conservative states while California has become one of today's most liberal bastions These are the most dramatic cases but notable shifts in voting patterns have occurred throughout the western states in recent decades shifts so varied and complex that they have until now eluded the attention focused on the drastic examples of the South and Northeast Bringing clarity to the remarkably mixed yet poorly understood map of America's red blue and purple western half *Color Coded* presents the first comprehensive history of political change and stability in the region between 1950 and 2016 The West in Walter Nugent's analysis includes nineteen states the thirteen that the U S Census Bureau calls the Western Region roughly from the Rocky Mountains to the Pacific as well as off shore Alaska and Hawaii plus the six Great Plains states from North Dakota south to Texas Consulting official voting results of more than 5 300 state and national elections as well as newspaper reports oral histories public documents and other sources Nugent reveals the ever shifting patterns that have defined western politics in modern times Geography culture history political trajectories and the charisma of key political actors have all played their part in these changes and will Nugent asserts continue to do so for the foreseeable future A powerful exhaustively researched study of modern political organization party development and shifting voter blocs in the West *Color Coded* deftly charts as well the profound red blue tensions that have defined modern America Returns for the 5 300 plus elections on which the book is based covering the nineteen western states between 1950 and 2016 are compiled in the book's appendix [Interrogating Critical Pedagogy](#) Pierre Wilbert Orelus, Rochelle

Brock, 2014-11-13 Educators teacher practitioners and social activists have successfully used critical pedagogy as a tool to help marginalized students develop awareness and seek alternative solutions to their poor educational and socioeconomic situations However this theory is often criticized as being mostly dominated by privileged white males bringing issues of race and gender to the forefront This volume provides insight on how critical pedagogy can be helpful to scholars and teachers alike in their analysis of racial gender linguistic and political problems It features a wide range of respected scholars who examine the way and the degree to which critical pedagogy can be used to improve education for students of color women and other marginalized groups **Unreconciled** Andrea Smith, 2019-12-13 In the 1990s many evangelical Christian organizations and church leaders began to acknowledge their long history of racism and launched efforts at becoming more

inclusive of people of color While much of this racial reconciliation movement has not directly confronted systemic racism's structural causes there exists a smaller countermovement within evangelicalism primarily led by women of color who are actively engaged in antiracism and social justice struggles In *Unreconciled* Andrea Smith examines these movements through a critical ethnic studies lens evaluating the varying degrees to which evangelical communities that were founded on white supremacy have addressed racism Drawing on evangelical publications sermons and organization statements as well as ethnographic fieldwork and participation in evangelical events Smith shows how evangelicalism is largely unable to effectively challenge white supremacy due to its reliance upon discourses of whiteness At the same time the work of progressive evangelical women of color not only demonstrates that evangelical Christianity can be an unexpected place in which to find theoretical critique and social justice organizing but also shows how critical ethnic studies interventions can be applied broadly across political and religious divides outside the academy

**The Handbook of Community Practice** Marie Weil, Michael S. Reisch, Mary L. Ohmer, 2013 Written by some of the most influential scholars in the field this Handbook covers community development organizing planning and social change as well as key issues fields of practice and global approaches

**Forgiven** Charles E. Shepard, 2022-09-15 Charles E Shepard's investigative reporting of television evangelist Jim Bakker and his Praise The Lord People That Love ministry won for The Charlotte Observer the 1988 Pulitzer Prize for meritorious public service Unprecedented in its scope Shepard's reporting forced Bakker's resignation in 1987 by exposing PTL's scandalous payoff of Jessica Hahn and then helped thwart Bakker's secret plan to return to power In *Forgiven* Shepard analyses how Bakker won the allegiance of so many as he details Bakker's early years and PTL's birth blossoming and headline making decline Truly a landmark work *Forgiven* delves beneath the PTL scandal to illuminate the fascinating inner workings of a major TV ministry the hazards of the strange alliance between television and church and the power of television in our culture This edition includes new and updated material on the trial sentencing and imprisonment of Jim Bakker

Carter, 2003 [The Door Magazine](#), 2001 [The Battle for America's Families](#) Anne Bathurst Gilson, 1999 What is behind the claims the Christian right makes regarding families What sort of theological ethical response can feminist Christians and others offer In *The Battle for America's Families* Anne Gilson argues that the Christian right represented by such conservative groups as the Christian Coalition and Pat Robertson's 700 Club uses a theology based on an ideology of control manifested in two ways sexual politics families should have well defined gender roles for heterosexual parents that exclude lesbians and gay men and economic politics welfare should not support women who bear children but will not serve under the headship of a husband and refuse to work Gilson offers a response to this ideology based not on judgment and repression but on justice and the concept of Christians as moral agents
