Michael Cimino Interview:

The Deer Hunter Brad Prager,2023-09-07 Michael Cimino's *The Deer Hunter* was met with both critical and commercial success upon its release in 1978. However, it was also highly controversial and came to be seen as a powerful statement on the human cost of America's longest war and as a colonialist glorification of anti-Asian violence. Brad Prager's study of the film considers its significance as a war movie and contextualizes its critical reception. Drawing on an archive of contemporaneous materials as well as an in-depth analysis of the film's lighting, mise en scène, multiple cameras, and shifting depths of field, Prager examines how the film simultaneously presents itself as a work of cinematic realism while problematically blurring the lines between fact and fiction. While Cimino felt he had no responsibility to historical truth, depicting a highly stylized version of his own fantasies about the Vietnam War, Prager argues that *The Deer Hunter*'s formal elements were used to bolster his troubling depictions of war and race. Finally, comparing the film with later depictions of US-led intervention such as Albert and Allen Hughes's *Dead Presidents* (1995) and Spike Lee's *Da 5 Bloods* (2020), Prager illuminates *The Deer Hunter*'s major presumptions, blind spots, and omissions while also presenting a case for its classic status.

The Film Anthologies Index Stephen E. Bowles, 1994-10. The Film Anthologies Index is a bibliographical resource essential to any person or institution interested in the study of film. No publication or database currently indexes the contents of these important anthologies. There are over 600 anthologies by both multiple and single authors in English that have been published through 1991. These anthologies contain over 10,000 stand-alone pieces that 1) reprint articles from their original source, 2) select excerpts from book-length publications, and 3) include original essays appearing only in a specialized anthology. Without The Film Anthologies Index, the researcher would have no guide to the valuable contents between the covers of these anthologies. Much more than just a guide to the contents of anthologies, the main section consists of 6,563 numbered entries that alphabetically list by author the contents of each piece found in the anthologies. You could find, for example, all pieces written by a particular author which have appeared in the anthologies. Additionally, every author entry refers the user to all the anthologized sources which contain each specific piece. For example, Robert Warshaw's landmark essay on *Movie Chronicle: The Westerner* can be found in 9 different anthologies, or that selected essays by Sergei Einstein appear in over 50 separate anthologies. Without The Film Anthologies Index, there would be no way to systematically locate these buried treasures. The final section of The Film Anthologies Index consists of an extensive listing of all film titles, individual names, specific genres, countries, periods, studios, etc., as well as all key words and phrases that appear in the titles of the included pieces. There are approximately 7,000 topics covered in this section. The user-friendly layout of this reference source makes it both a comprehensive resource for everyone from the casual moviegoer who wants a deeper understanding of the medium to the dedicated film scholar who is pursuing material on International Dictionary of Films and Filmmakers Tom Pendergast, Sara Pendergast, 2000. Contains over two thousand entries arranged alphabetically within four volumes that provide information about significant films, actors, and actresses, directors, and writers.
