Gushee, 1999 In this collection of essays sixteen evangelical scholars and teachers consider the dilemma of poverty in modern America Brought together by a Bauman Foundation grant under Evangelicals for Social Action sponsorship they address the historical political and economic issues involved in this pervasive social problem The authors also bring Christian principles to bear on their analysis of poverty's root causes on their consideration of policies that have been adopted or proposed and on their own responses Practical suggestions for concrete action are offered that warrant the consideration of churches charitable agencies and politicians **Journal of Institutional and Theoretical Economics**, 1986

Governance Structures and the Employment Relationship Stefan Zagelmeyer, 2004 Governance structures are the institutional elements of labour markets They provide the rules for the employment relationship In principle this relationship may be governed by individual regulation by collective bargaining or by legal regulation Despite the importance of governance structures we still have only a rudimentary understanding of the way in which they emerge and evolve This book analyses the determinants of governance structures for the employment relationship in Britain It begins with an evolutionary framework for the analysis of governance structures based on decisions taken about governance structure constitution by the parties to industrial relations In the long run these structures need to survive institutional competition A comprehensive discussion of the potential determinants of governance structures is followed by an empirical analysis drawing on historical accounts case study evidence and the quantitative data provided by the Workplace Industrial Employee Relations Survey series The individual employer's role and perspective provide the main focus of the book This study provides a comprehensive micro foundation for the analysis of governance structures In addition it throws light on the discussion of optimal governance structures for the employment relationship and the labour market **Handbook of Behavioral Economics: Behavioral microeconomics** Benjamin Gilad, Stanley Kaish, 1986 Artificial Intelligence in Medicine, 2001
