The Future Church John L. Allen, Jr., 2012-01-24 One of the world's foremost religion journalists offers an unexpected and provocative look at where the Catholic Church is headed and what the changes will mean for all of us What will the Catholic Church be like in 100 years Will there be a woman pope Will dioceses throughout the United States and the rest of the world go bankrupt from years of scandal In **THE FUTURE CHURCH** John L Allen puts forth the ten trends he believes will transform the Church into the twenty second century From the influence of Catholics in Africa Asia and Latin America on doctrine and practices to the impact of multinational organizations on local and ethical standards Allen delves into the impact of globalization on the Roman Catholic Church and argues that it must rethink fundamental issues policies and ways of doing business Allen shows that over the next century the Church will have to respond to changes within the institution itself and in the world as a whole whether it is contending with biotechnical advances including cloning and genetic enhancement the aging Catholic population or expanding the roles of the laity Like Thomas Friedman's *The World Is Flat* **THE FUTURE CHURCH** establishes a new framework for meeting the challenges of a changing world [Creating Women's Theology](#)

Being Beheld explores the standardization of clinical ethics techniques and articulates how its integrity depends on our dissent from such standardization Moving between philosophical theological and practical lenses it offers a reorientation of ethics to participation in the good of the other mirroring the Christian Eucharistic liturgy [Hope from a Body in Pain](#) Lena Maria Lorenz, 2025-12-03 This book explores the phenomenon of hope in the context of long term ill health It brings medicine

psychology and theology in dialogue with the voices of those with first hand experience of chronic pain The chapters reflect on existing psychological literature on hope the theological perspectives of three key figures Augustine Aquinas and Moltmann and interview based empirical research with persons who live with chronic pain In a theological framework hope is a complex and dynamic force which incorporates and yet goes beyond any understandings within the cognitive behavioural framework of psychology The author challenges a highly individualistic and positivistic view on hope and argues for hope as intuitive reflective active and communal The book will be of particular interest to scholars working at the intersection of medicine psychology and theology as well as those in the medical humanities **Issues in Science and Technology** ,2001
