Complexity-Aware High Efficiency Video Coding Guilherme Corrêa, Pedro Assunção, Luciano Agostini, Luis A. da Silva Cruz, 2015-12-29 This book discusses computational complexity of High Efficiency Video Coding HEVC encoders with coverage extending from the analysis of HEVC compression efficiency and computational complexity to the reduction and scaling of its encoding complexity After an introduction to the topic and a review of the state of the art research in the field the authors provide a detailed analysis of the HEVC encoding tools compression efficiency and computational complexity Readers will benefit from a set of algorithms for scaling the computational complexity of HEVC encoders all of which take advantage from the flexibility of the frame partitioning structures allowed by the standard The authors also provide a set of early termination methods based on data mining and machine learning techniques which are able to reduce the computational complexity required to find the best frame partitioning structures The applicability of the proposed methods is finally exemplified with an encoding time control system that employs the best complexity reduction and scaling methods presented throughout the book The methods presented in this book are especially useful in power constrained portable multimedia devices to reduce energy consumption and to extend battery life They can also be applied to portable and non portable multimedia devices operating in real time with limited computational resources [High Efficiency Video Coding](#)

[Mathias Wien](#), 2014-09-29 The video coding standard High Efficiency Video Coding HEVC targets at improved compression performance for video resolutions of HD and beyond providing Ultra HD video at similar compressed bit rates as for HD video encoded with the well established video coding standard H 264 AVC Based on known concepts new coding structures and improved coding tools have been developed and specified in HEVC The standard is expected to be taken up easily by established industry as well as new endeavors answering the needs of today's connected and ever evolving online world This book presents the High Efficiency Video Coding standard and explains it in a clear and coherent language It provides a comprehensive and consistently written description all of a piece The book targets at both newbies to video coding as well as experts in the field While providing sections with introductory text for the beginner it suits as a well arranged reference book for the expert The book provides a comprehensive reference for the technical details of the employed coding tools it further outlines the algorithmic advances compared to H 264 AVC In addition to the technical aspects the book provides insight to the general concepts of standardization how specification text is written and how these concepts apply to the HEVC specification *HEVC Encoder Optimization and Decoding Complexity-aware Video Encoding* Thanuja Mallikarachchi, 2017

Recent Advances in Material, Manufacturing, and Machine Learning Rajiv Gupta, Devendra Deshmukh, Awanikumar P. Patil, Naveen Kumar Shrivastava, Jayant Giri, R.B. Chadge, 2023-05-26 The role of manufacturing in a country's economy and societal development has long been established through their wealth generating capabilities To enhance and widen our knowledge of materials and to increase innovation and responsiveness to ever increasing

international needs more in depth studies of functionally graded materials tailor made materials recent advancements in manufacturing processes and new design philosophies are needed at present The objective of this volume is to bring together experts from academic institutions industries and research organizations and professional engineers for sharing of knowledge expertise and experience in the emerging trends related to design advanced materials processing and characterization and advanced manufacturing processes *ECISM 2017 11th European Conference on Information Systems Management* ,2017-09-14 *Current Awareness Abstracts* ,1998 *InfoWorld* ,1980-02-18 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Design Strategies and Innovations in Multimedia Presentations** Hai-Jew, Shalin,2015-07-07 Multimedia is currently used in a variety of contexts from social interaction to educational and business settings The richness of the multimedia experience and its ability to enhance information sharing in a variety of settings makes it a valuable tool Design Strategies and Innovations in Multimedia Presentations brings together the latest scholarly research and proven strategies for designing and implementing multimedia technologies for various applications with an emphasis on education Featuring a selection of highly informative chapters on the pervasiveness of multimedia and best methods for developing presentations using this technology this publication is an essential reference source for researchers practitioners and professionals This publication features timely research based chapters on the use of digital media tools and applications including digital visualization e learning human computer interaction online presentations semantic web social media data and technology in education *Resources in education* ,1991 **Library & Information Science Abstracts** ,1994 **InfoWorld** ,2000-12-04 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects *High Efficiency Video Coding (HEVC)* Vivienne Sze,Madhukar Budagavi,Gary J. Sullivan,2014-08-23 This book provides developers engineers researchers and students with detailed knowledge about the High Efficiency Video Coding HEVC standard HEVC is the successor to the widely successful H 264 AVC video compression standard and it provides around twice as much compression as H 264 AVC for the same level of quality The applications for HEVC will not only cover the space of the well known current uses and capabilities of digital video they will also include the deployment of new services and the delivery of enhanced video quality such as ultra high definition television UHDTV and video with higher dynamic range wider range of representable color and greater representation precision than what is typically found today HEVC is the next major generation of video coding design a flexible reliable and robust solution that will support the next decade of video applications and ease the burden of video on world wide network traffic This book provides a detailed explanation of the various parts of the standard insight into how it was developed and in depth discussion of algorithms and architectures for its implementation **Lewis's Medical-Surgical Nursing 6th Australia and New Zealand Edition** Diane Brown,Thomas Buckley,Robyn Aitken,Helen Edwards,2023-11-28

Lewis's Medical Surgical Nursing has long been considered a comprehensive and reliable resource for nursing students preparing for their transition into clinical practice. This sixth edition has been fully updated to incorporate the latest research data, current clinical practice procedures and guidelines. The text addresses core skills and knowledge that students need to pass their exams and go on to provide expert clinical care. It prepares nurses to assess patients, understand underlying diseases and their signs and symptoms, and go on to plan and deliver care. The text encourages readers to develop their clinical reasoning and problem-solving skills in order to apply theory to their work. This edition has been produced by leading expert nursing academics and clinicians who bring a strengthened focus on inclusion and diversity. Provides a person-centred holistic approach to patient assessment and care. Complex concepts are illustrated with figures, tables, summaries and reflections of best practice. Case studies throughout based on real-life medical/surgical scenarios help students to apply theory to real life. Clinical practice features offer practical guidance for students. Underpinned by the nursing process framework. Instructor resources on Evolve. Image collection. PowerPoint slides. Student and Instructor resources on Evolve. Answer guidelines for clinical reasoning questions in case studies. Student case studies. Fluids and electrolytes tutorial. eNursing Care Plans. Clinical Cases. High Efficiency Video Coding and Other Emerging Standards provides an overview of high efficiency video coding (HEVC) and all its extensions and profiles. There are nearly 300 projects and problems included and about 400 references related to HEVC alone. Next generation video coding (NGVC) beyond HEVC is also described. Other video coding standards such as AVS2, DAALA, THOR, VP9, Google, DIRAC, VC1 and AV1 are addressed and image coding standards such as JPEG, JPEG LS, JPEG2000, JPEG XR, JPEG XS, JPEG XT and JPEG Pleno are also listed. Understanding of these standards and their implementation is facilitated by overview papers, standards documents, reference software, software manuals, test sequences, source codes, tutorials, keynote speakers, panel discussions, reflector and ftp web sites, all in the public domain. Access to these categories is also provided. *Coding Video*. Iain E. Richardson, 2024-08-28. A fully up-to-date guide to transformative consumer technologies. Video compression or video coding has been at the centre of a revolution in the way video is produced, delivered and consumed. It has made the switch from analogue to digital video possible and has enabled fundamental shifts in the way we now watch video. New video compression standards together with adaptive streaming protocols are used to deliver high quality video to homes and workplaces around the world. *Coding Video* provides a practical and comprehensive guide to the new landscape of video coding and video streaming. This book explains the core technologies with a wealth of practical examples and illustrations, covers key standards such as H.265, HEVC and includes an introduction to the new H.266, VVC standard. *Coding Video* will appeal to engineers, application developers, product designers and digital video professionals as well as to graduate students and researchers in
