Political Islam Observed:

Political Islam Observed Frédéric Volpi, 2010 Frédéric Volpi compares the academic disciplines that observe contemporary political Islam to the actual individuals and communities that are being observed by them. Zeroing in on the social sciences and their distinct approach to Islamic subject matter, Volpi shows how disciplines analyze political Islam according to their own dominant paradigms. Even with the incorporation of specialist viewpoints, the interdisciplinary drive often results in nothing more than educated guesses geared toward political and public consumption. Volpi argues that the competition between these paradigms obscures the actual dynamics and cohesiveness of political Islam. He identifies the strengths and weaknesses of disciplinary approaches toward the Islamist phenomenon and takes the first step in developing an account based on post-orientalism, international relations, the sociology of religion, and studies in democratization, multiculturalism, security analysis, and globalization.

Political Islam Observed Clifford Geertz, 1971-08-15
In four brief chapters, writes Clifford Geertz in his preface, I have attempted both to lay out a general framework for the comparative analysis of religion and to apply it to a study of the development of a supposedly single creed, Islam, in two quite contrasting civilizations, the Indonesian and the Moroccan. Mr. Geertz begins his argument by outlining the problem conceptually and providing an overview of the two countries. He then traces the evolution of their classical religious styles, which, with disparate settings and unique histories, produced strikingly different spiritual climates. So in Morocco, the Islamic conception of life came to mean activism, moralism, and intense individuality, while in Indonesia, the same concept emphasized aestheticism, inwardness, and the radical dissolution of personality. In order to assess the significance of these interesting developments, Mr. Geertz sets forth a series of theoretical observations concerning the social role of religion.

Fridays of Rage Sam Cherribi, 2017-02-01
Fridays of Rage reveals Al Jazeera's rise to that most respected of all Western media positions, the watchdog of democracy. Al Jazeera served as the nursery for the Arab world's democratic revolutions, promoting Friday as a day of rage and popular protest. This book provides a glimpse into how Al Jazeera strategically cast its journalists as martyrs in the struggle for Arab freedom while promoting itself as the mouthpiece and advocate of the Arab public. In addition to heralding a new era of Arab democracy, Al Jazeera has become a major influence over Arab perceptions of American involvement in the Arab World, the Arab-Israeli conflict, the rise of global Islamic fundamentalism, and the expansion of the political far right. Al Jazeera's blueprint for Muslim democracy was part of a vision announced by the network during its earliest broadcasts. The network embarked upon a mission to reconstruct the Arab mindset and psyche. Al Jazeera introduced exiled Islamist leaders to the larger Arab public while also providing Muslim feminists a platform. The inclusion and consideration of Westerners, Israelis, Hamas, secularists, and others earned the network a reputation for pluralism and inclusiveness. Al Jazeera presented a mirror to an Arab world afraid to examine itself and its democratic deficiencies. But

rather than assuming that Al Jazeera is a monolithic force for positive transformation in Arab society *Fridays of Rage* examines the potentially dark implications of Al Jazeera's radical reconceptualization of media as a strategic tool or weapon As a powerful and rapidly evolving source of global influence Al Jazeera embodies many paradoxes the manifestations and effects of which we are likely only now becoming apparent *Fridays of Rage* guides readers through this murky territory where journalists are martyrs words are weapons and facts are bullets **Islam Observed** Clifford Geertz, 1968 *Political Islam* Barry M. Rubin, 2007 Organized into sections this book discusses the origins and world view of political Islam and its relationship with issues of terrorism and democracy This three volume collection also includes case studies that examine the ideas strategy tactics leadership and opposition to the movement both in the Middle East and in other parts of the world

Defeating Political Islam Moorthy Muthuswamy, 2009-03-24 Urging U S policy makers to rethink the War on Terror along the lines of the Cold War against communism *Defeating Political Islam* offers a fresh perspective on the ongoing threat from Islamist terrorism and the future course of U S foreign policy initiatives **Transnational Political Islam** Azza

Karam, 2004 Political Islam to be distinguished from Islam as a culture or a religion and from Islamic Fundamentalism is an increasingly important feature of the western political scene The ideologies of Political Islam reflect the fact that some of their adherents live and work within a Western socio political context Although Political Islam has been widely written about in Muslim countries very little has been published the West and this book attempts to redress that imbalance With a range of outstanding contributors that includes academics and human rights advocates this book tackles the diversity of Islamist thinking and practice in various Western countries and explores their transnational connections in both East and West The book analyses developments in Islamist thinking and activities and their connections to the latest global political and economic trends and discusses future evolutions of the ideology and its manifestations **The Moslem World**, 1926

Political Civility in the Middle East Frederic Volpi, 2014-06-11 Contemporary debates about civility are shaped by the dominant liberal and secular narratives of a peaceful world of sovereign nation states For contemporary scholars and policy makers the challenge is to insert meaningfully the political evolution of the Middle East in the dominant liberal democratic discourse about the current international order without invoking ill conceived notions of Islamic exceptionalism The analyses gathered in this book challenge conventional western perspectives on civility as an expression of state guaranteed free association in a non violent space of discourse and behaviour Considering the articulation of civil and civilized state society relations in contemporary Middle Eastern polities this book proposes both conceptual and empirical insights into the

dynamics of the local national and trans national formation of civility and of the civil sphere Bypassing traditional oppositions between the western and Islamic modernity it provides an account of the communicative clusters of civility that represent the everyday formations of Islamic and secular subjects in settings organized by authoritarian inclined state institutions and practices It examines how the grassroots formation of new religious and secular identities subjectivities and their relations with the Other underpin as well as challenge and transform the state led processes of political ordering of a national and regional community This book was originally published as a special issue of Third World Quarterly
