media consumption practice not just in Asia Africa and South America but also all over Europe and North America All over the world we are witnessing a growing number of people building media relationships outside those institutionalized sets of rules We do not intend to discuss whether we are dealing with legal or illegal practices our launching point for this analysis is that when a very significant proportion of the population is building its mediation through alternative channels of obtaining content such behavior should be studied in order to deepen our knowledge of media cultures Because we need a title to characterize those cultures in all their diversitybut at the same time in their commonplacenesswe propose to call it Piracy Cultures
