Grade	near the scientific method used in scientific inquiry?	near is matter described by its properties and changes it undergo?	near are the many forms of energy used to produce work or cause change of its state?	near is the process of the water cycle connected to the Earth's resources allowing for all forms of water to be used?	near do different factors of the Earth work together to produce a climate?	near do similar forms work together to cause climate of different matter?	near are the objects in the solar system similar and different from each other?	near are things alike, including plants and animals, a result of a process?
