Nice Book Function Ornament Second Printing:

The Function of Ornament Farshid Moussavi, 2022-02-04 Architecture needs mechanisms that allow it to become connected to culture. It achieves this by continually capturing the forces that shape society as material to work with. Architecture's materiality is therefore a composite one made up of visible forces: structural, functional, physical, as well as invisible forces: cultural, political, temporal. Architecture progresses through new concepts that connect with these forces, manifesting itself in new aesthetic compositions and affects. Ornament is the by-product of this process through which architectural material is organized to transmit unique affects. This book is a graphic guide to ornaments in the twentieth century. It unveils the function of ornament as the agent for specific affects, dismantling the idea that ornament is applied to buildings as a discrete or non-essential entity. Each case operates through greater or lesser depth to exploit specific synergies between the exterior and the interior, constructing an internal order between ornament and material. These internal orders produce expressions that are contemporary yet whose affects are resilient in time.

Queer Books of Late Victorian Print Culture Frederick D. King, 2024-05-31 Queer books like LGBTQ people adapt heteronormative structures and institutions to introduce space for discourses of queer desire. **Queer Books of Late Victorian Print Culture** explores print culture adaptations of the material book, examining the works of Aubrey Beardsley, Michael Field, John Gray, Charles Ricketts, Charles Shannon, and Oscar Wilde. It closely analyses the material book, including the elements of binding, typography, paper, ink, and illustration, and brings textual studies and queer theory into conversation with literary experiments in free verse, fairy tales, and symbolist drama. King argues that queer authors and artists revised the Revival of Printing's ideals for their own diverse and unique desires, adapting new technological innovations in print culture. Their books created a community of like-minded aesthetes who challenged legal and representational discourses of same-sex desire with one of aesthetic sensuality.

Blanks, Print, Space, and Void in English Renaissance Literature Jonathan Sawday, 2023-06-20 **Blanks, Print, Space, and Void in English Renaissance Literature** is an inquiry into the empty spaces encountered not just on the pages of printed books in c. 1500-1700 but in Renaissance culture more generally. The book argues that print culture in the sixteenth and seventeenth centuries helped to foster the modern idea of the gap where words, texts, images, and ideas are constructed as missing, lost, withheld, fragmented, or perhaps never devised in the first place. It reimagines how early modern people reacted not just to printed books and documents of many different kinds but also how the very idea of emptiness or absence began to be fashioned in a way which still surrounds us. Jonathan Sawday leads the reader through the entire landscape of early modern print culture, discussing topics such as space and silence, the exploration of the vacuum, the ways in which race and racial identity in early modern England were constructed by the language and technology of print, blackness and whiteness together with lightness, darkness, and sightlessness, cartography and emptiness, the effect of typography on reading practices, the social spaces of the page, gendered surfaces, hierarchies of information, books of memory, pages constructed as waste or vacant, the genesis of

blank forms and early modern bureaucracy the political and devotional spaces of printed books the impact of censorship and the problem posed by texts which lack endings or conclusions The book itself ends by dwelling on blank or empty pages as a sign of human mortality Sawday pays close attention to the writings of many of the familiar figures in English Renaissance literary culture Sidney Shakespeare Donne Jonson and Milton for example as well as introducing readers to a host of lesser known figures The book also discusses the work of numerous women writers from the period including Aphra Behn Ann Bradstreet Margaret Cavendish Lady Jane Gray Lucy Hutchinson melia Lanyer Isabella Whitney and Lady Mary Wroth A Clearance Catalogue of Superior Second-hand Books in Literature, Science, and the Fine Arts ...
