The English Eliot Steve Ellis, 2015-12-22 This book first published in 1991 supplies a neglected cultural context for T S Eliot's writings of the 1930s and 1940s particularly Four Quartets and attempts to disprove the widespread belief in Eliot's unproblematic commitment to England and the Englishness The book traces Eliot's classicism not only in linguistic and formalist terms but also in his construction of England in the Quartets and Quartets related essays His practice is related to the vigorous polemic concerning the definition of England found in the 1930s and 1940s in material as diverse as landscape painting advertising travel literature and the detective novel This original and provocative text will not only be of interest to students and teachers of Eliot but to those interested in representations of nationality [The Study of the Linguistic](#)

Jenks, 2017-08-14 This book examines racism and racialized discourses in the ELT profession in South Korea The book is informed by a number of different critical approaches to race and discourse and the discussions contained in the chapters offer one way of exploring how the ELT profession can be understood from such perspectives Observations made are based on the understanding that racism should not be viewed as individual acts of discrimination but rather as a system of social

structures While the book is principally concerned with language teaching and learning in South Korea the findings are situated in a wider discussion of race and ethnicity in the global ELT profession The book makes the following argument White normativity is an ideological commitment and a form of racialized discourse that comes from the social actions of those involved in the ELT profession this normative model or ideal standard constructs a system of racial discrimination that is founded on White privilege saviorism and neoliberalism Drawing on a wide range of data sources this book is a must read for anyone interested in critically examining ELT *Policy Development in TESOL and Multilingualism* Kashif Raza,Christine Coombe,Dudley Reynolds,2021-08-22 The book is of interest to scholars of multilingualism language teachers researchers and administrators who are developing policies on teaching English and promoting multilingualism Given its scope this edited collection provides an overview of how multilingualism is transforming the practice of Teaching English to Speakers of Other Languages TESOL in diverse contexts around the world It serves as a platform for discussions related to policy enactment where TESOL and multilingualism are viewed as collaborative endeavours and approaches the topic from three different angles The first section of the book provides critical examinations of previous initiatives and accomplishments in the area of language policy development and implementation The second section describes current projects and initiatives intended to expand and strengthen the field of TESOL while providing space for local and indigenous languages to develop The third and last part of the book highlights policy development areas that need special consideration in order to develop a form of TESOL that builds on and contributes to multilingualism *The English Catalogue of Books* Sampson Low,1911 Volumes for 1898 1968 include a directory of publishers [Borrow House Museum](#) George Arthur Stephen,1927

not millennia but now urban expansion depopulation of rural areas and most damagingly the intensification of agricultural and silvicultural practices are everywhere leading to a loss of their cherished biodiversity and amenity Whilst past changes have mostly added to the valued characteristics of these landscapes modern farming and forestry are creating sterile monocultures on the better land whilst marginal lands are being abandoned This book documents these changes illustrates them through detailed case studies of a representative selection of threatened landscapes analyses their underlying causes and explores ways by which they can continue to be maintained or new landscapes created which maintain their desired characteristics
