The first complete guide to this ancient Greek form of divination Explains how to cast and interpret this oracle using either coins or traditional animal bones Reveals how the use of oracle bones predates the I Ching Includes the complete matrix of oracle interpretations reconstructed by the author from stanzas in ancient Greek temples In ancient Greece methods of foretelling the future were widespread whether they were official oracles of the gods or simple dice games to divine one s luck One of the most popular and accessible ways of determining one s fate and fortune was through the ritual casting of animal bones similar to the casting of coins or yarrow stalks with the Chinese I Ching Kostas Dervenis explains how to interpret the casting of the oracle bones either traditional sheep anklebones or coins to answer your questions on love health wealth and the future Using the original stanzas discovered in ancient Greek

temples in Greece and Turkey the author reconstructs the complete matrix of interpretation for each possible casting of the bones He explores how this practice traces back to the Golden Age of the Neolithic period in Greece Turkey and Bulgaria predating the I Ching and how it is still practiced today as the popular folk game of knucklebones Providing the first complete guide to this ancient practice Dervenis allows anyone to cast the bones for guidance inspiration and insight into their fate The Modern Oracle Lisa Boswell,2023-05-04 Discover your fortune change your destiny Use your star sign to reach your fitness goals kickstart your career with crystal energy sort out of your love life with tarot or embark on some deep self reflection with palmistry With expert guidance from a Romany Gypsy psychic and diviner The Modern Oracle will teach you the key methods of fortune telling and divination helping you answer life s big questions and solve everyday dramas Find out what your future holds Psychic mediums are the new wellness coaches NY Times Art and Oracle Alisa LaGamma, Metropolitan Museum of Art (New York, N.Y.),2000 Twenty eight African cultures are represented here by artifacts created to communicate with ancestors spirits and gods about such issues as health conception and determination of guilt or innocence Issued in conjunction with an April July 2000 exhibit at The Metropolitan Museum of Art NY this catalog contains extensive ethnographic descriptive and interpretive text in connection with each of 50 pictured pieces as well as a 13 page essay about divination in Sub Saharan Africa by John Pemberton III and an introductory essay by LaGamma Annotation copyrighted by Book News Inc Portland OR **Omens and Oracles** Matthew Dillon,2017-07-14 Addressing the role which divination played in ancient Greek society this volume deals with various forms of prophecy and how each was utilised and for what purpose Chapters bring together key types of divining such as from birds celestial phenomena the entrails of sacrificed animals and dreams Oracular centres delivered prophetic pronouncements to enquirers but in addition there were written collections of oracles in circulation Many books were available on how to interpret dreams the birds and entrails and divination as a religious phenomenon attracted the attention of many writers Expert diviners were at the heart of Greek prophecy whether these were Apollo s priestesses delivering prose or verse answers to questions put to them by consultants diviners known as manteis who interpreted entrails and omens the chresmologoi who sang the many oracles circulating orally or in writing or dream interpreters Divination was utilised not only to foretell the future but also to ensure that the individual or state employing divination acted in accordance with that divinely prescribed future it was employed by all and had a crucial role to play in what courses of action both states and individuals undertook Specific attention is paid in this volume not only to the ancient written evidence but to that of inscriptions and papyri with emphasis placed on the iconography of Greek divination *The Art of Divination* William Douglas Horden,2019-12-06 As there is One Spirit that speaks to us there is only One Speaking One Oracle The root meaning of the word oracle is after all simply the Latin orare meaning to speak The Oracle then is the Speaking of the One Spirit regardless of the specific divinatory method through which it speaks In that vein this book is intended as a companion for diviners in their relationship with the Oracle whether

the method they are using to communicate with the Oracle is the I Ching Tonalpohuolli Astrology Tarot Cabala Numerology Geomancy Feng Shui Runes Crystal Gazing or any of the other time tested methods of divination To be a diviner means penetrating the veil of the five senses and perceiving the eternal at work in the temporal By way of an analogy a water dowser also called a water diviner does not look for future water on the contrary the dowser is looking for present water that is hidden beneath the surface So it is with the act of divination we are not trying to tell the future we are on the contrary attempting to know what is present beneath the surface of the five senses The art of divination is to step outside the flow of time in order to clearly perceive and accurately interpret the symbols of the eternal ideas This act of perceiving the unfolding of present circumstances is an integral aspect of adapting to and guiding the ongoing manifestation of spirit Divinations used to be cast for the emperor to decide for example if the capital city ought to be moved or if the nation ought to go to war Every divination ought to be undertaken with a similar sense of gravitas *The Secrets of Afro-Cuban Divination* Ócha'ni

Divination and Oracles analyses the religious practices of the ancient world as they have been witnessed from Scandinavia to Tibet and Japan from the third millennium BC until the present day Divination and the consultation of oracles formed part of the religious practice of the ancient world and are part of the living folklore of the contemporary societies They are subjects that are of immediate concern to anthropologists and not infrequently to the historians of early science Written by the specialists in the early history of European and Asian Civilisations the chapters call on the evidence of the written word of history and the surviving artefacts and inscriptions of archaeology They describe the different methods that have been

adopted and examine the types of question that feature in man's attempt to seek guidance from other powers. The contributions show how an appeal to the irrational can affect the decision of prophet or statesman or the way of life of farmer or sailor and how such an appeal can also stimulate scientific enquiry into the cycles of nature. This book is a must read for scholars and researchers of religion, comparative religion and ancient history. *Oracle of the Goddess Book and Card Pack* Anna Franklin, 2003. It's a divination deck, a way to experience 25 aspects of the goddess and an aid to meditation. Packed into this exquisitely decorated flip-top box are 25 large and beautiful full-color cards, each dedicated to a different female divinity and a wonderfully informative guidebook. Anna Franklin, the well-known pagan author of *The Wellspring* and *Illustrated Encyclopedia of Fairies*, explains the imagery and symbols for every card, describes the function and lore of each goddess and gives instructions on how to use the card in both the upright and reversed positions. The goddesses come from a variety of traditions and places, including Artemis, the wild and free Greek huntress, and the Egyptian Maat, who stands for justice, truth and balance. Look carefully at the cards and see how each one touches you at the deepest level; they're designed as visual triggers and feature key symbols to help you feel the sacred feminine within yourself. *Ask The Universe* Seren Greenway, 2021-02-27. This book can be used as a stand-alone oracle reading or during a tarot reading to gain deeper insight. It can also be used as a bit of fun; the universe will gauge your energy and enjoys play from time to time. Containing messages of wisdom and occasional humour, this book has been written purposefully. Each text has been carefully selected and the pages they have been placed upon considered thoughtfully. *Art and Oracle: African Art and Rituals of Divination*, 2007. *Studies in Ancient Oracles and Divination* Mika Kajava, 2013.
