**Degré second** ,1986 Studies in French literature from the Renaissance to the present      *Rabelais, His Life* John Cowper Powys,1951      **Rabelais and Bakhtin** Richard M. Berrong,1986-01-01 In *Rabelais and Bakhtin* Richard M Berrong

demonstrates both the historical and textual weaknesses of the argument advanced by Mikhail Bakhtin and his influential study *Rabelais and His World*. The publication of Bakhtin's book in the West in the late 1960s brought both Rabelais and Bakhtin to the attention of students interested in the New Criticism in literature. Bakhtin argued that the key to Rabelais's narratives was to be found in their language of popular culture which was intended to free his readers from the ideological prison house of official establishment discourse to provide them with a nonofficial perspective from which to view and combat the establishment and its institutions. Since the publication of Bakhtin's study scholars such as Peter Burke, Natalie Zemon Davis and Carlo Ginzburg have shown that the relationship of the upper classes to popular culture changed in the first half of the sixteenth century. Previously these classes had participated fully in the culture of the people while adhering to their own but at that time they undertook to exclude popular culture from their lives and from their world. In his refutation of Bakhtin's thesis Berrong demonstrates the complex and shifting role of popular culture in Rabelais's narratives. His conclusions should interest not only readers of *Gargantua and Pantagruel* but all students of the sixteenth century since the use and exclusion of popular culture is an issue in the study of many of the writers, artists and composers of the period.

Eating Landscape Philip P. Arnold, 1999. At the same time Arnold demonstrates that the very texts that open a window on Tlaloc ceremonies were created by Spanish missionaries. Particularly important was Sahagun's Florentine Codex which as was the case with the work of other ethnographers was intended to destroy Aztec ceremonies by exposing them through writing. Using texts to reveal a pre-Columbian past therefore is problematic. Arnold therefore suggests an alternative reading of the texts with reference to the material environment of the Valley of Mexico. *MLN*, 1974. *MLN* pioneered the introduction of contemporary continental criticism into American scholarship. Critical studies in the modern languages Italian, Hispanic, German, French and recent work in comparative literature are the basis for articles and notes in *MLN*. Four single language issues and one comparative literature issue are published each year. *T. P.'s Weekly* Thomas Power O'Connor, Holbrook Jackson, 1908.
