Race Walk Clinic In A :

Race Walk Clinic in a Book Jeff Salvage, Tim Seaman, 2011-08-29 America's premier team of clinicians Jeff Salvage and Tim Seaman's *Race Walk Clinic in a Book* beautifully illustrates textbook techniques while it catalogs typical mistakes race walkers make that can rob them of a legal race and speed. It explains why these problems exist and prescribes critical solutions to correct them. If you are ready to improve your race walking style and step up to the next level then pick up *Race Walk Clinic in a Book* today. Our approach in *Race Walk Clinic in a Book* is to pick up where other training materials leave off. We start by grounding our discussion with a review of correct race walking technique but do not focus on the many aspects of technique that you can do incorrectly. We then divide race walking technique problems into broad categories starting with issues of legality and then separating technique issues into categories such as hip leg arm and posture problems. For each category we illustrate the problem with photographs of either elite race walkers or for beginner problems staged images. We then offer remediation in two forms: exercises, drills, and stretches to improve your style and mental cues to guide your focus while race walking. Within the educational material presented we've interspersed *Tales from the Track*, a unique collection of unique stories in which great race walkers from the U.S. and around the world retell some of their most memorable experiences. **FINALIST IN THE FOREWORD MAGAZINE BOOK OF THE YEAR AWARD SPORTS CATEGORY** State, 1988
