On-time records for each major U.S. carrier and safety records for the busiest U.S. airports. How to maximize your frequent flyer miles. Where to find the cheapest air fares and if you've been mistreated, how to complain and get compensation.

Mind Trap Alan Baulch, 2020-02-01 Samuel Thornton arrived as a patient at the Berkshire clinic direct from Shanghai. The grip on his mind total. More patients arrive the grip on their minds the same pure evil. Without the help of David Bareham, an ex-priest, they will all die and be used as tools for the pleasure of Kali Ma herself. Friends rally and a group with David is formed. They have to tackle the spiritual evil attacking them. The group are taken on a journey following past lives, death, and business corruption. Their experiences cause them to fear for their very souls. Death beckons, they become trapped in a fight they couldn't possibly win alone.

Air Route Networks Through Complex Networks Theory Jose M. Sallan, Oriol Lordan, 2019-11-06 Air Route Networks through Complex Networks Theory connects theory research with network connectivity analysis, providing practitioners with the tools they need to develop more efficient, resilient, and profitable air route networks. The book helps airline route planners and executives create more robust route networks that are less vulnerable to disruptions such as node isolation. The book further explores errors and attacks in complex networks, strategies for detecting critical nodes, and cascading failure models to assess and maximize robustness. The book explains how to measure air route network connectivity with complex network representations. Air transport is among the most dynamic and toughest competition industries in today's global economy. The quality of air route network design is a key strategic factor in an airline's viability. These robust networks provide for more stable and secure carrier operations vs those based simply on existing supply and demand volumes. Node-specific and network-specific representations are covered along with in-depth coverage of connectivity in spatial and temporal networks. These collective tools serve as a guide for practitioners seeking to apply complex network theory to the airline industry. Presents complex networks theory research results applied to airline transportation networks. Examines airline network robustness in the face of disruptions, providing strategies for detecting critical nodes of air transport networks. Provides historical perspective on the economic, political, technical, and geographical constraints that influence airline route portfolios. Connects data from valuable tools such as navpoints, area control centers (ACC), and flight information centers with air network modeling. Studies spreading-related phenomena such as rumors and disease contagions and how these affect the airline industry.

War's Wake Allan Wilford Howerton, 2005-09-13 A Love Story from the Aftermath of World War II. THEY SEEMED MADE FOR EACH OTHER, young and in love and filled with dreams. But something went terribly wrong. Was it the awful aftermath of the war? Or something more? Something incomprehensible. Something never anticipated or perceived. On a university campus bulging with ex-GIs, a traumatized combat veteran and an idealistic sophomore fell madly in love. Years later, the long-dead sophomore invading his computer as he tries to make a novel of his life lures him back to reprise what went wrong. Their bittersweet reassessments and besotted indulgences provide a wacky tour of Truman-era morality, a sobering look at postwar USA, and an ardent time-travel love story about memory, commitment, and the decisive decisions that frame our lives. Along the way, readers may join the American Veterans Committee (AVC), a new WW II veterans organization with the idealistic slogan "Citizens First, Veterans Second." Cheer Franklin D. Roosevelt Jr., Charles Bolte Cord Meyer, and others as they battle the American Communist Party for control of the AVC. Integrate a bar near the campus that refused to serve Blacks. Attend a seminar led by Alger Hiss, later accused as a Soviet spy. Go to a riotous Communist Party rally and emerge intact and wiser. Vote for Thomas Dewey, Strom Thurmond, Harry Truman, or Henry Wallace in the 1948 presidential election. Get married as a dazzled Episcopal priest mingles the Christian Science of Mary Baker Eddy with Saint Paul as the lights go low in the funky little Episcopal Church near the campus. Relive that crazy and wonderful year 1948 when, in the glow of youth, the end of World War II and the establishment of the United Nations, all the world seemed filled with promise, even as the beginning of the Cold War cast ever-darkening shadows. Within this beautifully written, brainy, and often witty love story are a plethora of observations about war and its repercussions, love and its consequences, memory and its caprices, writing and its perils, and death and its regenerations. **War's Wake** is a fun-to-read fantasy, even within the poignant, nostalgic sadness of its main story line. Order here online or via TOLL FREE PHONE 1-888-795-4274. **War's Wake** the novel is a sequel to the memoir *Dear Captain* et al. *The Agonies and the Ecstasies of War and Memory*. World War II love stories. Message board.
