Women's Work Jennifer Moore,2025-03-11 When women have full socioeconomic citizenship as well as equitable and respectful partnerships with men transformative justice can be sustained in postconflict societies In *Women's Work* Jennifer Moore presents a reimagined theory of peacebuilding and transformative justice based on the experiences and insights of women farmers and microentrepreneurs who lived through protracted civil conflicts drawing on seven years of interviews with women activists across ten communities five in the Acholi region of Northern Uganda and five in the Moyamba and Koinadugu Districts of Sierra Leone Despite the important differences between the preconflict and conflict histories and demographics of the two countries Moore finds commonalities in the practical yet visionary approaches to community life emerging from the core values daily activities and long range goals shared by rural cooperative members in both regions Collective survival communal healing and conflict resolution define the rhythm of these women's daily lives as they go about building peace piecemeal They reject punitive retribution models and demand instead a peacebuilding model that advocates for advances in material well being the acknowledgment of state accountability for community suffering and reconciliation and restoration of community networks But most important Moore amplifies these women's voices when they insist that legal equality for women and healthy partnerships between women and men are also essential components to enduring transformation of their societies Moore theorizes what peacebuilding look like if it were modeled on these women led matriarchically structured communities that proved not only to be effective at holding governments accountable but also to have the capacity to feed their people and revitalize their local economies *Women's Work* shows that when women have full socioeconomic citizenship as well as equitable and respectful partnerships with men transformative justice can be sustained through the arts of collective livelihood violence free conflict management and celebration

The Resilience of Cultural Landscapes Fabrizio Aimar,2024-04-23 This book explores the possibility of building the resilience of the UNESCO cultural landscapes both using theoretical conceptions and practical strategies and actions Two case studies have been selected one in Italy and one in China which have then been explored for the first time in such a comparative way Different notions of landscape as well as the driving force of changes affecting these landscapes are examined and compared Moreover the perceptions of the local communities regarding these landscapes are examined using online questionnaires with over 400 participants This research highlights the need for an integrated management system building stronger rural communities able to manage change and continuity Five pillars to build the resilience of these landscapes have been provided with schemes and figures requiring a people centered approach in their management This book demonstrates strong connections between identity and landscape resilience especially in inland areas where the sense of

identity is most prominent Furthermore it is structured to make it possible to replicate this investigation in ordinary case studies i e ordinary landscapes Scholars and professionals interested in cultural landscapes and heritage conservation are target of this book as well as site managers

Bowker's Law Books and Serials in Print ,1984 The Zoological Record ,2002 Relentless Reformer Robyn Muncy,2016-10-11 Josephine Roche 1886 1976 was a progressive activist New Deal policymaker and businesswoman As a pro labor and feminist member of Franklin D Roosevelt s administration she shaped the founding legislation of the U S welfare state and generated the national conversation about health care policy that Americans are still having today In this gripping biography Robyn Muncy offers Roche s persistent progressivism as evidence for surprising continuities among the Progressive Era the New Deal and the Great Society Muncy explains that Roche became the second highest ranking woman in the New Deal government after running a Colorado coal company in partnership with coal miners themselves Once in office Roche developed a national health plan that was stymied by World War II but enacted piecemeal during the postwar period culminating in Medicare and Medicaid in the 1960s By then Roche directed the United Mine Workers of America Welfare and Retirement Fund an initiative aimed at bolstering the labor movement advancing managed health care and reorganizing medicine to facilitate national health insurance one of Roche s unrealized dreams In Relentless Reformer Muncy uses Roche s dramatic life story from her stint as Denver s first policewoman in 1912 to her fight against a murderous labor union official in 1972 as a unique vantage point from which to examine the challenges that women have faced in public life and to reassess the meaning and trajectory of progressive reform
