position of the woman writer in the popular imagination Nancy A Walker author of *Feminist Alternatives* **The New Feminism** Natasha Walter, 1999 Where has British feminism gone Has it retreated into the academy did it burn out at Greenham Common has it emigrated to the United States Natasha Walter discovers that there is a new feminism right here and now in Britain It is alive and kicking and speaking in the voices of young British women In defining this new feminism Natasha Walter celebrates women's growing power casts aside the dogma of previous generations and argues that the old adage The Personal is Political does more harm than good Because above all this new feminism is frankly materialist Who cares about how women dress how they talk how they make love First feminism must deliver political power and economic equality With tremendous wit verve and intelligence *THE NEW FEMINISM* marks out fresh ground in feminist debate

Turner, Helen M Sterk, 1994-11-21 Joining the debate on gender differences this book presents a cross section of current research in communication language and gender studies The first part presents studies that ask how women and men differ on a range of communication variables and suggest reasons for these differences The second part offers a variety of critiques of masculine cultural hegemony The third part envisions how gender differences may be reconceptualized in order to open key cultural institutions to honor both women and men Taken as a whole the chapters inform one another in a creative dialectical tension Examining what researchers mean by gender differences and values implicit in the term is critical to understanding current trends in gender studies Material Girls Lindsey German, 2007 Why at the beginning of the 21st century are most women still at the bottom of the pile The demand for real equality has hit the limits of what capitalism is willing to concede Low pay unsocial hours expensive childcare and the erosion of welfare provision dominate the lives of millions of women The battle for women's liberation urgently needs to be renewed but argues Lindsey German it will only succeed by linking up with wider struggles to change society as a whole *The Conversation Begins* Christina Looper Baker, Christina Baker Kline, 1997 The first book to take an honest in depth look at the difficulties and rewards of being a feminist mother and to ask prominent feminist daughters whether their mother's vision was successfully or unsuccessfully transmitted to them while growing up Sisterhood not motherhood has been the focus of American feminism for the past twenty five years In fact during the 70s many feminists viewed motherhood as a hindrance to women's progress toward equality an attitude that alienated legions of potentially feminist women by ignoring even disparaging the needs and concerns of those who were mothers Nevertheless many of those women had daughters who now have come of age and are reshaping the women's movement to suit their needs The passing of the torch has not been entirely smooth however As young women define an agenda of their own they also find themselves having to assess the legacy of their foremothers for better and for worse In *The Conversation Begins* Christina Looper Baker and her daughter Christina Baker Kline draw on talks with a diverse range of over sixty women of both generations asking
