1 ParentScript Tutorial

This chapter is a short introductory tutorial to ParentScript. It hopefully will give you an idea how ParentScript can be used in a Lisp web application.

2 Setting up the ParentScript environment

In this tutorial, we will use the Portable Allegroserve webserver to serve the tutorial web application. We use the ASDF system to load both Allegroserve and ParentScript. I assume you have installed and downloaded Allegroserve and Parentscript, and know how to setup the central registry for ASDF.

The tutorial will be placed in its own package, which we first have to define.
