OWNER MANUAL

Congratulations!

Congratulations on your purchase of a new SCOTT bicycle! We are confident that the bicycle will exceed your expectations for value, performance, and ride quality. Each frame set and component has been custom specified and designed to enhance your riding experience. Whether you are a beginning cyclist, or a seasoned pro, SCOTT bicycles will provide endless hours of well-earned fun.

We strongly encourage you to take the time to read this manual and familiarize yourself with your new bicycle. If you have purchased a bike for your children, please

Bicycle safety

1. Obey all traffic laws.
2. Make sure that the bike size is right for the rider, and that the rider wears proper safety gear.
3. Make sure that the brakes and the bicycle work properly with all maintenance.
4. Always have a light at night and wear reflective gear.
5. Never ride two people on a bicycle designed for one person, specially designed and properly used for child carriers.
6. Never drink or ride on another vehicle.

Frame size and saddle height

Comfortable riding not only depends on the position of the saddle, but also on its height. You can accurately adjust the height of the saddle to the length of your legs when you proceed as follows:

1. Double the saddle: Place the ball of your foot on the pedal nearest to the ground. Make sure the pedals are vertical.
2. If the heel of your foot points down about 90 degrees, the height of the saddle is correct.

Suspension on SCOTT Mountain Bikes

If you have chosen a SCOTT bike equipped with a suspension fork, please refer to the enclosed instructions of the manufacturer.

For the adjustment of the rear suspension on a fully suspension bike, please refer to the instructions of the manufacturer of the suspension elements, and to the SCOTT instructions for full suspension bikes. Both books are enclosed with the bike.

Only a well adjusted suspension brings security, control and fun!
