**Living a Feminist Life** Sara Ahmed,2016-12-22 In Living a Feminist Life Sara Ahmed shows how feminist theory is generated from everyday life and the ordinary experiences of being a feminist at home and at work Building on legacies of feminist of color scholarship in particular Ahmed offers a poetic and personal meditation on how feminists become estranged from worlds they critique often by naming and calling attention to problems and how feminists learn about worlds from their efforts to transform them Ahmed also provides her most sustained commentary on the figure of the feminist killjoy introduced in her earlier work while showing how feminists create inventive solutions such as forming support systems to survive the shattering experiences of facing the walls of racism and sexism The killjoy survival kit and killjoy manifesto with which the book concludes supply practical tools for how to live a feminist life thereby strengthening the ties between the inventive creation of feminist theory and living a life that sustains it

**Feminism, Self-Presentation, and Pinterest** Emily S. Johnson,2020-06-26 Feminism Self Presentation and Pinterest The Labor of Wedding Planning argues that Pinterest which has been largely criticized for perpetuating vapid stereotypical gender roles is actually a dynamic digital curation tool that facilitates meaning making around the important cultural event of the Western wedding Emily S Johnson through a thorough examination of how aspiring brides use the platform to plan their weddings found that Pinterest is a unique platform that offers brides the opportunity to construct their own wedding identity by engaging in creativity and exercising voice and agency during planning Even if the content they are consuming does support tenets of patriarchy or gender roles brides are able to make their own choices rather than having their goals determined for them through societal or familial norms and expectations The platform integrates both the online and offline labors of wedding planning as brides create meaning through the curation process and connect with the self as they execute their planning Overall Johnson argues that far from the stereotypes of fantasizing about dream weddings and luxurious lifestyles that may be unrealistic Pinterest gives brides increased ability to make their own specialized vision come to life Scholars of women s studies gender studies communication media studies cultural studies and rhetoric will find this book particularly useful

**Digital Femininities** Frankie Rogan,2022-07-01 Digital Femininities The Gendered Construction of Cultural and Political Identities Online

examines the role of new media technologies in the production of girls cultural and political identities The book argues that the varied and complex spaces which make up our social media should be conceptualised as important terrains upon which neoliberal and postfeminist subjectivities can be both reproduced and subverted In doing so the book explores many key issues underpinning current debates around gender politics and digital media including gendered spatial politics visibility surveillance and regulation beauty politics and civic and political engagement and activism Over the last decade the position of girls and young women within the digital landscape of social media has been a topic of much debate On the one hand girls social media practices are presented as a key site of concern wherein new digital technologies are said to have produced an intensification of individualised neoliberal and postfeminist identities Conversely others have championed access to social media for young people as a potentially useful political tool enabling previously marginalised political subjects such as girls to access and participate within new and exciting political cultures Locating itself at the intersection of these two approaches this book offers a fresh contribution to these debates Based upon the findings from focus groups with girls and young women aged between 12 and 18 in England the book offers an in depth analysis of the digital cultures that emerged from the study This timely book will be essential reading for anyone interested in contemporary femininity and feminism and the role of digital media in the production of cultural political and gendered identities

Who's Laughing Now? Jenny Sundén, Susanna Paasonen, 2020-11-24 Exploring feminist social media tactics that use humor as a form of resistance to misogyny the affective dynamics of shame shaming and shamelessness Online sexism hate and harassment aim to silence women through shaming and fear In Who's Laughing Now Jenny Sundén and Susanna Paasonen examine a somewhat counterintuitive form of resistance humor Sundén and Paasonen argue that feminist social media tactics that use humor laughter and a sense of the absurd to answer name calling offensive language and unsolicited dick pics can rewire the affective circuits of sexual shame and acts of shaming Using laughter as both a theme and a methodological tool Sundén and Paasonen explore examples of the subversive deployment of humor that range from assholeonline to the Tumblr Congrats you have an all male panel They consider the distribution and redistribution of shame discuss Hannah Gadsby's Nanette and describe tactical retweeting and commenting as practiced by Stormy Daniels among others They explore the appropriation of terms meant to hurt and insult for example self proclaimed Finnish tolerance whores and what effect this rerouting of labels may have They are interested not in lulz amusement at another's expense not in what laughter pins down limits or suppresses but rather in what grows with and in it The contagiousness of laughter drives the emergence of networked forms of feminism bringing people together although it may also create rifts Sundén and Paasonen break new ground in exploring the intersection of networked feminism humor and affect arguing for the political necessity of inappropriate laughter
