Hospitals, the Planning and Design Process Owen B. Hardy, Lawrence P. Lammers, 1977. An initial plan to guide hospital executives and all members of the professional planning and design team through the entire process from program planning to opening. This text contains information helpful to every person connected with any sizable project. This book describes the major activities inherent to the planning and design process largely from a how-to-do-it standpoint and attempts to order the total process in realistic and appropriate sequences.

**Productivity Measurement and Improvement** Robert Pritchard, 1995-04-25. Improving organizational productivity is an important current and future issue. The improvement can be effected by changing technology or by changing the way in which people work. The concern of this work is how to structure work so that people can and will want to maximize their productivity using a special approach to measurement and improvement of organizational productivity defined by the author: ProMES (Productivity Measurement and Enhancement System). ProMES is a way of motivating people to maximize their productivity. This book describes a series of cases where ProMES was applied to improve productivity in service and manufacturing organizations in a variety of different organizations in different countries. Results indicate very large increases in productivity, much larger than those typically found. Lessons learned from these cases for future productivity improvement efforts are summarized.
