

SAMPLE CASE STUDY BASED ON ACTUAL PATIENT

International Academy of Medical Acupuncture Case Studies

Case Number: 14

Patient Initials: JSW

Initial Date of Patient Consult/Treatment: January 13th, 2004

Patient Age: 43 Gender: Female Occupation: Office Manager

Subjective Patient Complaints: Adult onset asthma- Dyspnea, cough and occasional wheezing symptoms upon increased physical exertion/ exercise or "stress" situations

Onset: Three years ago insidiously, although after thorough questioning of the patient she revealed that she had lost a beloved pet and experienced much grief.

What palliates/provokes the symptoms? Provoked by exercise, emotional/physical Stress, cigarette smoke, mold, and also worse with seasonal respiratory allergies. Acute dyspnea and asthma symptoms temporarily eased with prescription bronchial inhaler medication.

Quality of symptoms: Bronchial spasm creating difficult expiration; a sensation of tightness in the chest, occasional wheezing symptoms. This patient states that on a scale of 1-10, where 10 is the best, she rates her symptoms as a three, due to the amount of interruption and disturbance to her normal daily routine.

Is there any radiation of symptoms? The dyspnea, wheezing and cough often causes neck and upper back soreness and stiffness, "tightness" sensation in chest, and occasional sore throat from the forceful coughing.

Describe the site of symptomatology: Bronchial, Lung, Chest/ Thoracic region

Time of day/ duration of symptoms: Daily episodes of dyspnea. Symptoms often worse @3-5 AM causing patient to awake coughing. Patient reports having to use medication (bronchial inhaler) at least 3-4 times a day typically associated with the above mentioned stressors.

Prior contributory health history: 1) Seasonal upper respiratory allergies, primarily Spring and Fall 2) Occasional episodes of mild eczema (dermatitis) over the last few years on hands and forearms in times of extreme grief/stress 3) Occasional loose stools when under stress 4) Reports a history of being healthy, aside from this recent asthma problem; and athletic, involved in recreational sports. She enjoys caring for and riding her two horses but now finds difficulty exercising aerobically due to the dyspnea.

Characteristics of symptoms based upon Five Element Theory: a) Emotion of grief associated with the Lung meridian and skin conditions, as in this patients eczema. b) Patient's stress often causes loose stool, indicative of the coupled meridian association of Lung/ Large Intestine. C) The white pallored skin hue is also associated with the metal element (lung and large intestine).

Nursing Case Management Elaine Cohen, Toni G.

Cesta,2004-08-26 This classic resource offers complete coverage of nursing case management from theoretical background and historical perspective to practical applications and how the field is changing to meet the challenges of today's health care environment. It focuses on the implementation of various case management models used throughout the United States and abroad. Key topics include the impact of public policy on health care, understanding the effects of health care reimbursement and its application at the patient level, throughput and capacity management, the impact of the revenue cycle, compliance and regulatory issues, and principles needed to improve case manager/client interaction. This helpful resource is designed to help nurse case managers assess their organization's readiness for case management, prepare and implement a plan to achieve necessary improvements, and evaluate the plan's success. Includes numerous proven case management models currently being used in institutions across the country. Organized to take the nursing case manager on a journey from the historical development of nursing case management to the successful implementation of a case management program. Offers detailed guidance for planning, implementing, and evaluating a case management program. Outlines the planning process with information on key topics such as analysis of the organization, the role of the organization's members, selection criteria for new case managers, case management education, credentialing, and partnerships. Features guidelines for implementing a case management program with information on ethical issues, technology, compliance, and regulatory issues. Addresses the evaluation component of developing and implementing a case management program by presenting information on outcomes, research, documentation, continuous quality improvement, measuring cost effectiveness, care continuum, and evidence-based practice. Presents acute care and community-based models of case management. Highlights the evolution of collaborative models of case management, addressing key elements of joint decision making, shared accountability, and interdisciplinary systems of care. Addresses health care delivery through case management and public policy by presenting current legislative issues and their affect on both health care reimbursement and the application of care at the patient level. Presents the insights, experiences, and advice of nursing administrators who have researched and successfully implemented nursing case management programs in various facilities. **Case Management Models, Second Edition** Karen
