

Changing the needle plate Switch off the main switch

Removal

Raise the presser bar lifter. Position the needle plate changer (lamp changer) as shown above and press the needle plate upwards first on the right, then on the left. It can now be easily removed.

Reinserting

Place the needle plate up against the rear edge of the cut-out, then press downwards at the front until you hear it snap in place. Before you start sewing, check that the needle plate is lying flat.

Tip: Changing of the needle plate is even easier with a lowered feed dog!

Cleaning and oiling Switch off the main switch

Remove the needle plate and lower the feed dog. Clean the feed dog and foot area with the brush.

Apply only one drop of oil to the area in the hook shown above. The machine otherwise requires no maintenance and must not be oiled at any other points.

Clean and oil the sewing machine every 10-15 hours of operation.

Cleaning the display

Wipe the display with a soft, lint-free dry cloth. **DO NOT** use aggressive cleansers or solvents!

Changing the sewing lamp

Switch off the main switch. Disconnect the lead cord and the foot control plug from the machine. Remove the detachable work support.

The sewing lamp (bulb) is located inside the needle head of the sewing machine.

Important:

The maximum wattage of the bulb is 5 watts.

Bulbs can be purchased from your PRIMA dealer (part No. 92-529-975-05).

Insertion of the bulb

Insert the bulb in the lamp changer. Guide the bulb into the diagonal holder and turn it until the pins of the bulb engage. Push the bulb upward into the holder as far as it will go and turn it half a rotation in a clockwise direction. Remove the bulb changer from the bulb, the bulb is held firmly.

Bulb removal

Push the bulb remover, as shown in the figure, up as far as it will go. Now turn the bulb half a rotation counter-clockwise and remove the bulb.
