

BMW E90 320d 10/2011 Bluetooth Handsfree installation

All dealers that I have visited told me that it is not possible to get Bluetooth handsfree in my car because of configuration but no one could tell me why. So I have to check it myself. I browsed a lot and finally I have working installation.

I am writing a short manual for those of you who have similar configuration to mine. Use on your risk. My car had no preparation for Bluetooth handsfree installation. No Bluetooth antenna in the front, no wires (for antenna or mic) coming from the trunk to the front. I just have one microphone because of S620A (Voice control) and Combox in the trunk.

The installation should finally look like this:
