Opening up Word- Document Options

When you open up Word 2016, among your many selections, you have the option of choosing a blank document or a single spaced (blank) document. By default, the blank document contains 1.25 line spacing which is sort of like double spacing. To get rid of that, if you want single spacing or double spacing, you can simply click on the No Spacing button in the Styles group on the Home tab. If you simply want a single-spaced document, you can select the single spaced (blank) option when you open up Word.

Line Spacing- No Spacing Button

Format Painter Button

The Format Painter button can be used to copy formatting from one place and apply it to another. You simply format one line of text to your liking, select the text, and then double-click the Format Painter button to apply the same formatting to multiple places in your document. You will see your cursor will become a paintbrush. Simply click on the lines and format it the same as the line you have selected. Click on the Format Painter button again to turn it off. The Format Painter button is located in the Clipboard group on the Home tab.
